

# I Wanna Know You Like That

Anthem Lights

(I wanna know)

Just today  
I heard a story of a pastor far away  
Who watched his church walls fall with the rain  
With tears in his eyes  
Here is what he had say  
"Let's reach the ones that will rebuild this place"

I wanna know You like that  
To live, to love  
With everything I am  
To give it all  
I wanna know You like that  
To become  
A man after Your heart  
And not look back  
I wanna know You like that

I wanna know  
I wanna know  
I wanna know...

Like David did  
He lived a life this world cannot forget  
He'd fall so hard then get back up again  
Then face the giant knowing he would win  
Because You were with him

I wanna know You like that  
To live, to love  
With everything I am  
To give it all  
I wanna know You like that  
To become  
A man after Your heart  
And not look back  
I wanna know You like that

With every breath I breathe  
I wanna help others see  
And I will never stop  
'Til everybody's singing

With every breath I breathe  
I wanna help others see  
And I will never stop  
'Til everybody's singing

I wanna know You like that  
To live, to love  
With everything I am  
To give it all  
I wanna know You like that  
To become  
A man after Your heart  
And not look back

I wanna know You like that  
To live, to love  
With everything I am  
I'll give it all  
I wanna know You like that  
Lord, to become  
A man after Your heart  
And not look back  
I wanna know You like that

I wanna know, I wanna know  
I wanna know, I wanna know  
I wanna know You like that

I wanna know, I wanna know  
I wanna know, I wanna know  
I wanna know You like that
