

Just Fall

Anthem Lights

I would dive into canyons to save you
and climb up the highest skyscraper as pressure would drop drop drop
If it meant that all your pain would stop
I can see that Octobers been heavy and how much you wish that the floor would be steady below oh oh
I know it hurts more then you show oh oh
But when it feels like nobody cares
And you're drowning nobody's there
And you're grasping at nothing but air
You can just fall into me
I'll be the ground beneath your feet
You got it
You got it
You got what it takes yeah
I'm on it
I'm on it
I won't let you break no
You can just fall into me
Don't be afraid of gravity
You got it
You got it
You got what takes yeah
I'm on it
I'm on it
I won't let you break no
(Just fall) Just fall into me
(Just fall) Just fall into me
I would run through an African desert
To meet you at midnight
Or dawn
Or whenever you ne-e-need
Nothing is to much to ask of me yeah
You've been holding
To much weight yeah
Let my arms be
Your escape
You can just fall into me
I'll be the ground beneath your feet
You got it
You got it
You got what it takes yeah
I'm on it
I'm on it
I won't let you break ohh
You can just fall into me
Don't be afraid of gravity
You got it
You got it
You got what it takes yeah
I'm on it
I'm on it
I won't let you break no
(Just fall) Just fall into me
(Just fall) Just fall into me
(Just fall) Just fall into me
(Just fall) Just fall into me
You've been holding

So much weight yeah
Let my arms be
You can just fall into me
I'll be the ground beneath your feet
You got it
You got it
You got what it takes yeah
I'm on it
I'm on it
I won't let you break no
You can just fall into me
Don't be afraid of gravity
You got it
You got it
You got what it takes yeah
I'm on it
I'm on it
I won't let you break no
(Just fall) Just fall into me
(Just fall) Just fall into me
(Just fall) Just fall into me
(Just fall) Just fall into me
(Just fall) Just fall into me
(Just fall) Just fall into me
(Just fall) Just fall into me
(Just fall) Just fall into me
(Just fall) Just fall into me
(Just fall) Just fall into me
