

## Manifold Of...

Anthemon

A new plant takes birth in vitro  
In this clinic, greenhouse of souls, she gets form  
You're not the embryo of the Earth neither loves

The evolution of the foetus will be strange  
Symbol of this experimental garden

Enter this cold era  
Where the best can meet the worse  
Flower from nowhere takes root, manifold of...

A frigid present, future in a capsule  
The laws of nature are changed  
The limits will be passed  
This new creature blooms in this icy cradle

Manifold

A frigid present, future in a capsule  
The laws of nature are changed  
The limits will be passed  
This new creature blooms in this icy cradle

This new creature blooms in this icy cradle  
The limits will be passed  
The laws of nature are changed  
A frigid present, future in a capsule.
