

Poseidon

Anthenora

Hundreds of submarines
Are crawling in the mist
They wander through the waves
Searching for a prey

Hungry 'n silent sharks
Give out random bites
The human flesh 'n blood
Fill 'n paint the night

See the boats all around in the night
Hunting sharks rising from the abyss

And got to pray him

Poseidon - the darkest
Poseidon - he'll lead us

Underwater killers glide
Thrill 'n fear they ride
No warning when they come
No chance to stay alive

See the boats all around in the night
Hunting sharks rising from the abyss

And got to pray him

Poseidon - the darkest
Poseidon - he'll lead us
