

The Last Command

Anthenora

Death is calling from the sky
It seems to see 'em for a while
The attack is near, creeping fear
Unholy soldiers, insane will

Here comes the grimmest sound
Here come the dogs of war
We know the end is near
"No surrender, never fear!"
The last command - burns in me

Sacrifice wasted minds
We don't care to lose our life
Killing thrill strongest will
See the evil coming real

Here comes the grimmest sound
Here come the dogs of war
We know the end is near
"No surrender, never fear!"
The last command - burns in me

The hell is coming all around
As the bombs are falling down
Night will come in your mind
Flash around will make you blind

Here comes the grimmest sound
Here come the dogs of war
We know the end is near
"No surrender, never fear!"
The last command - burns in me
