Take It To The Heart

Anthony Callea

I can't say that nothings broken
Can't tell you i'm not wrong
The hardest word has been unspoken
On our lips for way too long
If you need a place to go
To know that this is true

Take it to the heart for real
Take it to the place where love can heal
I'm ready to go there
I'm ready to give up everything for this
Take it to the heart for keeps
Don't stop until its only you and me
There's nothing i won't do
Just let me show you
Here and now
Take it to the heart

Burning nights and days of thunder
Baby thats the way we are
This craziness can pull us under
If we let it go to far
If you need a place to go
To know that this is true

Take it to the heart for real
Take it to the place where love can heal
I'm ready to go there
I'm ready to give up everything for this
Take it to the heart for keeps
Don't stop until its only you and me
There's nothing i won't do
Just let me show you
Here and now
Take it to the heart

If you need a place to go
To know that this is true

Take it to the heart for real
Take it to the place where love can heal
I'm ready to go there
I'm ready to give up everything for this
Take it to the heart for keeps
Don't stop until its only you and me
There's nothing i won't do
Just let me show you
Here and now
Take it to the heart
