

As Above So Below

Anthony David

Far and away out on the edge
There's a difference on the fresh
Turn it around, closely inspect
Evolution onto the next

Take a look around
No, we're not done and we never will be
Look at what I've found, harmony, yeah

As above so below, as above so below
As above so below, as above so below
As above so below, as above so below
As above so below, as above so below

Blink of an eye, natural select
Infinite ways, butterfly effect
All from the One, the first and the last
The future, present is past

Memories have now become meaningless
And history is what comes next
All that is left, our dreams and wishes
Come to accept, it is what it is

As above so below, as above so below
As above so below, as above so below
As above so below, as above so below
As above so below, as above so below

As above so below, as above so below
As above so below, as above so below
As above so below, as above so below
As above so below, as above so below
