

Sweet Pain

Anthony David

Well, I'd like to get you to my place
and take things just as far as you'll let 'em
hopin' you'll keep callin' my name
I been watchin', waitin', hopin', wishin'
we could get it on together
let me introduce you to some sweet pain

Ah, the moon is high, the lights are low
and I don't think you're ready to go
There's too much tension, can we just let it out?
Ah, just a little time, a taste of wine
the gist of you is on my mind
let me know, are you open?
when I comfort you, do you warm to me?
Oh, just follow where I lead you.
It's so hard to find good company
you know, the human in we need to
Oh, darlin

Well, I'd like to get you to my place
and take things just as far as you'll let 'em
hopin' you'll keep callin' my name
I been watchin', waitin', hopin', wishin'
we could get it on together
let me introduce you to some sweet pain

Ah, the music's right, tonight'd the night
and I don't know why you're actin' shy
time's wastin', can we just let it out?
Oh, it's a simple equation, I been waitin', patient,
I'm sayin', we both know you are open
Ah, baby, jus roll with me, let your mind be free
Yes, just follow where I lead you
It's so hard to find good company
The human in we need to

Well, I'd like to get you to my place
and take things just as far as you'll let 'em
hopin' you'll keep callin' my name
I been watchin', waitin', hopin', wishin'
we could get it on together
let me introduce you to some sweet pain

I don't wanna, I don't wanna, I don't wanna sit down
Just a little longer (3x)

Well, I'd like to get you to my place
and take things just as far as you'll let 'em
hopin' you'll keep callin' my name
I been watchin', waitin', hopin', wishin'
we could get it on together
let me introduce you to some sweet pain
