

Yes

Anthony David

Feel it in the air between us
Electricity
When we touched I felt a bolt of lightning
Shooting straight through me
I don't if I'm ready yet for
What you got for me
But I got a taste of it now
And I want you
And there ain't nothin' wrong with that

It's what makes the world go round and
It's what makes the rivers flow and
It's what makes the sparrows sing and
It's what makes the flowers grow and
It's what gives a baby's breath and
It's what gives the sun its shine
It's what makes you feel this way and
It's what's gonna make you mine

My whole life flashed right before my eyes and
Came to the thought about you
They could shiver at the same vibration
If you're nervous too
I've forgotten everything I practiced
Don't know what to do
But if it's alright later on can I call you
Get to know you much better

It's what makes the world go round and
It's what makes the rivers flow and
It's what makes the sparrows sing and
It's what makes the flowers grow and
It's what gives a baby's breath and
It's what gives the sun its shine
It's what makes you feel this way and
It's what's gonna make you mine
(2x)

It's what's gonna make you mine (4x)
