

Could It Be

Anthony Evans

It wasn't worth it to give myself away
They didn't deserve it but they had all of me
I tried to find myself in someone else's eyes
A broken heart is all they left behind
And now the question that was haunting me
Is somehow comforting

Could it be everything that I was looking for
Could it be everything that I was missing before
Could it be everything that I could want and more
Is only You Lord
Could it be the only one who really satisfies
Was always standing here right before my very eyes
Could it be You my Lord

It felt so perfect I thought I had it all
For a moment and then it all went wrong
Captivated by the all the lies
They used me and left this soul to die
And now the question that was haunting me
Is all I'm holding

Could it be everything that I was looking for
Could it be everything that I was missing before
Could it be everything that I could want and more
Is only You Lord
Could it be the only one who really satisfies
Was always standing here right before my very eyes
Could it be You my Lord

I wanted so bad to be loved and to love
I wanted so bad that I gave myself up
Everything I had it could never be enough
Could it be, could it be you
