

Restore Me

Anthony Evans

On the outside
You think I'm alright
There's a smile on my face
Everything's okay
But on the inside there's a different story
I've stumbled down this road
And I've got so far to go
I'm a broken man
On my knees again
Longing for a touch from you
I need your hand to

[Chorus:]

Restore me
I need your mercy
Take me
To the place I used to be
Use all the pain and the hurt
To do a greater work and
Restore me

I wore my mask
Running away from my past
Hiding all my scars
Thinking I'd gone too far
But he knew my pain
And He loved me just the same
He promised I'd be free
If I fell on my knees and cried

[Chorus]

Restore unto me the joy of my salvation
So I'll sing again the song you wrote for me
Give me a clean heart I want a brand new start
Like the moment when I first believed

[Chorus]
