Restore Me

Anthony Evans

On the outside You think I'm alright There's a smile on my face Everything's okay But on the inside there's a different story I've stumbled down this road And I've got so for the go I'm a broken man On my knees again Longing for a touch from you I need you hand to

[Chorus:] Restore me I need your mercy Take me To the place I used to be Use all the pain and the hurt To do a greater work and Restore me

I wore my mask Running away from my past Hiding all my scars Thinking I'd gone too far But he knew my pain And He loved me just the same He promised I'd be free If I fell on my knees and cried

[Chorus]

Restore unto me the joy of my salvation So I'll sing again the song you wrote for me Give me a clean heart I want a brand new start Like the moment when I first believed

[Chorus]
