

## Clearly

Anthony Hamilton

You've got me caught up in a daze  
And I, cant seem to understand  
What I've been thinking  
And although your coming clearly now  
It's hard for me to turn around and keep from blinking  
All that I can do is be their  
And heaven knows that I swear u do something to me  
That I'll never ever tell a lie  
I'll always be their by your side  
Your so soothing

It's clearly understandable  
That I'm not some type of animal  
I'm just in love with u  
And heaven knows Im glad I found ya  
Loving and u came around to do the things that u do

U dont even hardly speak to me  
Tell me what could it be  
To let you walk away so freely  
But u still call from time to time  
Tell me why u play with me mind  
I know u wanna be here with me  
All that I can do is be their  
And heaven knows that I swear u do something to me  
That I'll never ever tell a lie  
I'll always be their by your side your so soothing

It's clearly understandable  
That I'm not some type of animal  
I'm just in love with u  
And heaven knows Im glad I found ya  
Loving and u came around to do the things that u do

I just dont know what I've been doing wrong  
In your life baby  
Baby if u give me one my time  
I will never ever leave yours side  
Ooooh

It's clearly understandable  
That I'm not some type of animal  
I'm just in love with u  
And heaven knows Im glad I found ya  
Loving and u came around to do the things that u do
