

Float

Anthony Hamilton

Could it be your nice silky tone
Ohh..that makes me want you girl
Distant nights spent love on the phone
As I touch myself
How I want you more
The mood evokes
Incense smoke and I'm burning up in temperature
Ready to explode
Come take a toké
Let's float
Baby on higher ground

Baby come
Float with me
Let me take
You to a place on higher honey
Baby come
Float with me
Face to face
Build a body of fire honey

Could it be your sweet sweet moan
While I'm inside your world your world
A sudden glance that you give from across the room
Come and take control yeah
Open up my favorite bottle
Let the wind blow
Create an atmosphere
Stay right here
Listen to the rain
Your handprints on the window pane
And its burning me up with the desire ohh..

When I think about it
I don't want to be without it
Baby grab a hold
Feel me in your soul
Forever more climb on
You beong to me

Baby come
Float with me
Let me take
You to a place on higher honey
Baby come
Float with me
Face to face
Build a body of fire honey

Call me
Write me
Love me
Come home
