

# Who's Loving You

Anthony Hamilton

You say you wanna walk out, you say you wanna leave  
I can tell by the way we make love  
You say things you don't believe  
It's like your mind says no, but your heart is sayin' yes  
I felt the warning signs about a week ago  
So I try to confuse you with happiness  
Yes I did

See God only knows  
How you really are feeling inside  
So I sat down with Venus  
And she said you're runnin' with lovin' this guy.

Baby I'm missing you crazy, I'm missing you like crazy  
I've been thinking, drowning, sinking, wondering  
Who's loving you lady, I'm missing you crazy  
I've been thinking, drowning, sinking, wondering  
Who's loving you now

All my friends say you're gonna be okay  
But days have turned to weeks  
And Marches have turned to May  
You said you wanna be alone girl  
But I see you holding his hand  
Cause love is your religion girl, you might hate the song  
But you love the pain, yes you do

See God only knows  
How you really are feeling inside  
So I sat down with Venus  
And she said you're runnin' with lovin' this guy.

Baby I'm missing you crazy, I'm missing you like crazy  
I've been thinking, drowning, sinking, wondering  
Who's loving you lady, I'm missing you crazy  
I've been thinking, drowning, sinking, wondering  
Who's loving you now
