

## Love In A Hot Air Balloon

Anthony Phillips

What a situation  
I want to take you beside the sea  
But I've got no transportation  
No tyres on the bike and the car's got a leak  
I had an inspiration  
Something's climbing above the trees  
It's silent aviation  
No bottlenecks on the A23  
Me oh my, watch me fly, through the sky, higher and higher  
Eagle eye, one mile high, watch us fly  
Love in a hot air balloon  
Feelings of elation  
Floating around in the atmosphere  
It's pure intoxication  
Moet Chandon et personne conduire  
Losing elevation  
The sands have run out and we're going down  
She stubbed her cigarette out  
And now we're on course for the Eiffel Tower  
Me oh my, watch me fly, through the sky, higher and higher  
Eagle eye, one mile high, watch us fly  
Love in a hot air balloon
