

## Aftershock

## Anthrax

The day will come, yu cannot run  
White hot clouds fill the sky  
See the red flare, blasting hot air  
There's no place left to hide

Binding our eyes as the sun turns to black  
A world full of harted and fear  
All are committed, there's no going back  
There'll be no one left to hear

Shock, there's no relief  
Shock, no will ever know why  
Shock

Shock, panic won't cease  
Shock, time to say our last good-bye  
Shock

Aftershock, humanity's loss  
Aftershock, all is destroyed  
Aftershock, have no remorse  
Aftershock, into the void

Never again we cannot depend  
On leaders who see things so blind  
Time will not lend, and never amend  
A lesson for all mankind
