

# Death from Above

Anthrax

Like the screaming eagle  
I'm on the run  
I blaze through the sky  
I kill for the fun

No reason, no warning  
Not shadow be found  
Got you in my sights  
And I'll shoot you down

Jet fighter, jet fighter  
Turbo jet engines ignite  
Jet fighter, jet fighter  
Death will filling the sky  
Jet fighter, jet fighter  
An airborne assault and attack  
Jet fighter, jet fighter  
A cold blooded stab in the back

Vengeance is calling on you  
And there's nothing that you can do  
Brings you the thing you deserve  
Death from above!

The chains of oppression  
We'll break with our teeth  
Before degradation  
We'd die at your feet

So ruthless and vicious  
To have no remorse  
He who lives by the sword  
Die by the sword

Jet fighter, jet fighter  
Turbo jet engines ignite  
Jet fighter, jet fighter  
Death will filling the sky  
Jet fighter, jet fighter  
An airborne assault and attack  
Jet fighter, jet fighter  
A cold blooded stab in the back

Vengeance is calling on you  
And there's nothing that you can do  
Brings you the thing you deserve  
Death from above!

Jet fighter, jet fighter  
Turbo jet engines ignite  
Jet fighter, jet fighter  
Death will filling the sky  
Jet fighter, jet fighter  
An airborne assault and attack  
Jet fighter, jet fighter  
A cold blooded stab in the back

Vengeance is calling on you  
And there's nothing that you can do  
Brings you the thing you deserve  
Death from above!
