

# Earth on Hell

Anthrax

The kids have gone wild in the streets  
I'm backing the havoc they wreak  
It's time for the fall, so say we all  
Starter of anything, ender of everything  
Coming to kick you to sleep  
The damage inflicted is gonna be deep  
Cheering for your own demise  
Starting tonight, people will die

Time bomb, ticking away, ticking away  
Scare the hell out of you  
This earth is on hell, earth is on hell

Welcome to your earth on hell  
The worse that it gets, the better it sells  
It's time for the fall, so say we all  
Starter of anything, ender of everything  
You made this sick hell on earth  
Spitting your poison infected at birth  
Taking the streets occupied  
Starting tonight, people will die  
Time bomb, ticking away, ticking away  
Scare the hell out of you  
This earth is on hell, earth is on hell

Oh, I'm getting out of line  
It's like I lost my mind  
Earth is now on hell  
Oh, I'm getting out of line  
I fucking lost my mind  
Earth is now on hell!

The kids have gone wild in the streets  
No longer the stepchild you beat  
They're taking it hard, kill the old guard  
Starter of anything, ender of everything  
Coming to kick you to sleep  
It's reap what you sow, not sow what you reap  
Cheering for your own demise  
Starting tonight, people will die

Time bomb, ticking away, ticking away  
Scare the hell out of you  
This earth is on hell, earth is on hell
