

# I'm the Man '91

Anthrax

1991, Always on the run  
Seven years ago we wrote this one  
Like Ernest and Julio, before it's time  
Seven tears later and it's holding up fine  
Stupid mother fuckers like to slag us and dis  
But there was no bandwagon when we wrote this  
'Cause we stretched our boundarses  
We opened the door  
That no one attempted before  
Five guys in shorts, who gives a shit  
We do what we like we don't care where we fit  
All you new jackey, what is N?  
You're fadding me get off our days

Now we're Anthrax and we take no shit  
And we don't care for writing hits  
The sound you hear is what we like  
And I'll steal your poptarts like I stole aissed  
Go Draih the lizard or take a piss...  
Watch the beat

I'm on your ease, I'm in your face  
Kick you and your father back in place  
Step of sucker understand  
Don't you know  
I'm the man

We got real Def Rhythms and fresh new jams  
If you think we've got egos will we're just hams  
Scott plays stickball and likes to skate  
Frankie's never on time he's always...  
Drinking the drinks, the drinks I drank  
I put my money in the bank  
They cut their crack they offer joints  
We don't do drugs do you get our meaning...  
Point, point, point, point and watch the beat

I'm on your ease, I'm in your face  
Kick you and your father back in place  
Step of sucker understand  
Don't you know  
I'm the man

For a heavy metal band raps a different way  
But we like to be different cucl not cliché  
Well they say rap and metal can never mix  
Well all of them can fuck our...(dickos)  
Fart the Farts the Fart he Farted  
I pick my nose but I'm not retarded  
Like a Juce says " Smell my anal vapor "  
And wipe my butt, with your fuckin' face  
You stupid idiot...

Soooo, As this rap is winding down  
It's plain to see I forget my hat  
You know Anthrax is number one  
But care we just wanna hear...(party)

Buff the buff the buff he buffed  
We are the kings and dee shall buff  
We're like a Diamond, that's forever  
And will remain the hardest ever I.
