

## N.F.B. (Dallabnikufesin)

**Anthrax**

We fell in love at first sight  
I can't explain the feelings  
When I first saw you  
We were so so happy  
A life time of love sweet honey child  
You'll always be mine  
But then I played the fool  
I never meant to hurt you  
Or sleep with all your friends  
We reconciled we found ourselves

Our love was meant to be  
Oh baby can't you see

You left me standing in the mud  
Crying to myself  
A heart so full of pain  
But we fell in love again  
This time forever  
True love prevails over all  
She got hit by a truck
