

Taking the Music Back

Anthrax

Your lies that took me where I've been
Your lies don't make me who I am
Your lies that left me scarred
And so fucking hard

Your lies that burn me deep inside
Your lies that helped to bleed me dry
Left on your own
Because your cover's blown

I am taking the music back
I am taking the music back
I am taking the music back
I am taking back, yeah

Against your will I'm not a slave
Against the deal and you get paid
I won't throw you a rope
You prove that shit can't float

Against it, you're the enemy
Against it, your philosophy
Shit thrown against the wall
You'll eat it all

I am taking the music back
I am taking the music back
I am taking the music back
I am taking back

I am taking the music back
I am taking the music back
I am taking the music back
I am taking back

I am taking the music back
I am taking the music back
I am taking the music back
I am taking it
