

# Taking the Music Back

Anthrax

Your lies that took me where I've been  
Your lies don't make me who I am  
Your lies that left me scarred  
And so fucking hard

Your lies that burn me deep inside  
Your lies that helped to bleed me dry  
Left on your own  
Because your cover's blown

I am taking the music back  
I am taking the music back  
I am taking the music back  
I am taking back, yeah

Against your will I'm not a slave  
Against the deal and you get paid  
I won't throw you a rope  
You prove that shit can't float

Against it, you're the enemy  
Against it, your philosophy  
Shit thrown against the wall  
You'll eat it all

I am taking the music back  
I am taking the music back  
I am taking the music back  
I am taking back

I am taking the music back  
I am taking the music back  
I am taking the music back  
I am taking back

I am taking the music back  
I am taking the music back  
I am taking the music back  
I am taking it
