## The Devil You Know

I've been a man of brutal means
Dealing out my business, it's so obscene
I'm not crossed, just recognized
As the son of a bitch that pulled it right between your eyes
An unexploded ordinance
Variate the deviance
A Glasgow Kiss or a Molotov
I'm about to blow it all

Countless, broken by the horror A heroes end is still the end My kind won't be seen again

Let the right one in Ya gotta go with the devil you know It's a goddamn sin Ya gotta go with the devil you know I'm ready, ready to begin You bastard Let the right one in Ya gotta go with the devil that you know

What goes around comes around And what comes around is gonna get beat down I don't let anything go to waste after the cold reveal of my murder face Another right that I made wrong Another I don't belong Of all the thing I said that stick Nothing good can ever come of this

Countless, broken by the horror A heroes end is still the end My kind won't be seen again And if ya don't know, now you know

I've been a man of brutal means Dealing out my business, it's so obscene I'm not crossed, just recognized As the son of a bitch that pulled it right between your eyes An unexploded ordinance Variate the deviance A Glasgow Kiss or a Molotov I'm about to blow it all

Countless, broken by the horror A heroes end is still the end My kind won't be seen again

Let the right one in Ya gotta go with the devil you know It's a goddamn sin Ya gotta go with the devil you know I'm ready, ready to begin You bastard Let the right one in

Ya gotta go with the devil that you know
