

# Spit in the Face

Anti-Flag

How can we be free?  
The bloodline of kings in the house of light  
Lynch law abiding citizens cashing in their rights  
The sky is on fire, the sky is on fire  
It's blood red and torching any horizon it desires

Spit in the face of the deceased  
Bite down on your tongue and turn the other cheek  
Spit in the face of the deceased  
Disappear like a ghost when we pass on the street

Spit, spit, spit in the face  
No, I don't give a fuck what you think of me  
Are we getting anywhere?  
I'm getting out of here

How can we be free?  
Abandoning the children in the forest to feed ourselves  
We will all stay more healthy if we don't distribute wealth  
Aimed friendly fire, aimed friendly fire  
(Fire!)

There is only greed living the life we desire

Spit in the face of the deceased  
Bite down on your tongue and turn the other cheek  
Spit in the face of the deceased  
Disappear like a ghost when we pass on the street

Spit, spit, spit in the face  
No, I don't give a fuck what you think of me  
Are we getting anywhere?  
I'm getting out of here

Spit in the face of the deceased  
Bite down on your tongue and turn the other cheek  
Spit in the face of the deceased  
Disappear like a ghost when we pass on the street

Spit, spit, spit in the face  
No, I don't give a fuck what you think of me  
Are we getting anywhere?  
I'm getting out of here

As we set sail across a raging sea  
(As we set sail across a raging sea)  
Unconquerable by reality  
(We are unconquerable)  
As we set sail across a raging sea  
(As we set sail across a raging sea)  
Unconquerable by reality  
I am infallible, I am untouchable

Spit in the face of the deceased  
Bite down on your tongue and turn the other cheek  
Spit in the face of the deceased  
Disappear like a ghost when we pass on the street

Spit, spit, spit in the face  
No, I don't give a fuck what you think of me  
Are we getting anywhere?  
I'm getting the fuck out of here
