

The Smartest Bomb

Anti-Flag

No they won't miss you when you're gone
When your heart stops beating and pumping blood
Pull the pin, light the fuse, this song's the smartest bomb...

You make your own choices and decisions,
You are invulnerable to influences
Sit down, line up, knuckle down, shut up
An electrifying organized crime,
With planes and boats and suicide
Sit down, line up, knuckle down, shut up

You're so in control
You're so disposable

30 second spot, real life video game
Memory erased, magnet over tape
Sit down-line up-knuckle down-shut up
Get psyched up listen to godsmack
Dip you toes in the sands of iraq
Sit down-line up-knuckle down-shut up

You're so in control
You're so disposable

They won't miss you when you're gone
When your heart stops beating and pumping blood
Pull the pin, light the fuse, this song's the smartest bomb

You're so in control
You're so disposable

They won't miss you when you're gone
When your heart stops beating and pumping blood
Pull the pin, light the fuse, this song's the smartest bomb

Every day we've been taught to follow
Every day lettered to live one way
There is no one left to acknowledge
There is nothing left to say
Every day we've been taught to follow
Every day lettered to live one way
There is nothing left to mention
There is nothing left to say

Kill tonight
Will you follow?
(8x)

No they won't miss you when you're gone
When your heart stops beating and pumping blood
Pull the pin, light the fuse, this song's the smartest bomb
