

Without End

Anti-Flag

Without end, I can see
Everything in front of me
Without end, I can be
As free as I want to be

It's the same game we all play
It's a game that we can't change
And there's nothing you can say to shake
the sands of our own fate

I gave away
All the things I'm supposed to save
I gave away
So I can be free
Of all that defines me

Without end, our crime would be
Living like it used to be
Without end, you stole from me
My home, my heart, my family

It's the same game we all play
It's a game that we can't change
And there's nothing you can say to shake
the sands of our own fate

I gave away
All the things I'm supposed to save
I gave away
So I can be free
Of all that defines me

Without end, we rise
Without end, we rise
Without end, we rise
Without end, we...

It's the same game we all play
It's a game that we can't change
And there's nothing you can say to shake
the sands of our own fate

I gave away all the things I'm supposed to save
I gave away

I gave away all the things I'm supposed to save
I gave away
So I can be free
Of all that defines me
So we can be free
So we can break free
