

Going Down

Anti-Nowhere League

The time has come to forget all the past
We turn our face from the West
We were given a chance
In our nuclear romance
But nothing can live here
Anymore

Not anymore, anymore, not anymore

The sun will shine in the skies no more
The beast will walk the land
With all the trees and the flowers gone
There's only desert sand
Our lives are darkness
Blinded by the light
We need to see no more
There is no reason to exist
We need to fight no more

Going down...underground
We're going down...underground

And the children of the common age
Are just the sperm of man
Masses of mutated forms
Are by their father's hand
Skin is warm by the ?
The air we breath it burns

We are the future of the Earth
The Earth shall reaturn

Going down...underground
We're going down...underground

Hunger raises its ugly head
Till the children born are dead
No life for the living
No dreams for the past
You are the future and
We are the dead...

The sun will shine in the skies no more
The beast will walk the land
With all the trees and the flowers gone
There's only desert sand
Our lives are darkness
Blinded by the light
We need to see no more
We have no reason to exist
We need to fight no more

Going down...underground
We're going down...underground
We're going down...underground
We're going down...underground
