

Medication

Anti-Nowhere League

Ah, please don't inject me, inspect me or protect me,
'Cuz I wont be a problem anymore.
I'll be a good little boy, I'll be your perfect little toy,
But please, don't inject me anymore!

Medication - It's time for your medication.

Ah, the needle feels so thick, and these pills they make me sick,
So you know I'll be a good boy here today.
And I promise not to run, or go searching for the sun.
So please, lock me up and go away!

Medication - It's time for your medication.

(Don't be difficult now - we don't want to get the doctor do we?)

And when I'm old and grey, we will all look back and say;
"Oh it's been such a lovely, lovely day".
But don't be so assured, if you think that I am cured.
So inject me once again, for the/that good old days!

(Medication) - It's time for my medication! - (It's time for your medication).

(?) - (?)down the hole - (hold him down nurse, hold him down).
- (?) - (?)down the hole.
