

Dying In Agony

Anti-System

A fox caught in the steel leg hole trap
A method really sick
The fox chews through it's own limbs
In a pitiful attempt to escape

You take the coats of beautiful animals
So you can look attractive
No you never stop to think of the animal suffering
It's a sad reflection of humanity

The demand for fur coats will cause thousands of death
Deaths the needn't be
But their high price tags won't match
The cost is agony

The badgers caught in the steel leg hole trap
A method really sick
The badger chews through it's own limbs
In a pitiful attempt to escape

You take the coats of beautiful animals
So that you can look attractive
You never think of the animal suffering
It's a sad reflection of humanity

The demand for fur coats will cause thousands of death
Deaths the needn't be
But their high price tags won't match
The cost is agony
But their high price tags won't match
The cost is agony
But their high price tags won't match
The cost is agony
But their high price tags won't match
The cost is agony
