

In My Eyes

Anti-System

The hate that burns in my eyes
Is the hatred that you have caused
The pains in my heart
Bring tears, yes that you have brought
Through your ignorance and selfishness
You stand feeling you've done nothing wrong
In your blindness and stupidity
You cannot see what you have done
Now what you have caused is a crime against innocent lives
You have destroyed so many in yet so little time
Senile minds, polluted dull brains
Children's bloated stomachs, bodies taut in pain
Hungry mouths to feed, you feel isn't your concern
Ugly weapons before people, why won't you ever learn
Learn that life should surely come before death
And that preserving life should be written in your text
To learn that life should surely come before death
And that preserving life should be written in your text

In my eyes
