

# The Big Fall Out

Anti-System

Four minute warning that's all we get  
Before the bomb falls, a holocaust of death  
Full blooded cities raised to the ground  
Hear the sound of silence, the most deadly sound

Mutilated bodies no skin to see  
It's all that's left after a radium spree  
Hiroshima heroes they started it all  
We've got to stop the next big fall

No more life to protest about  
Now we've suffered the big fall out  
No more life to protest about  
Now we've suffered the big fall out

Mutilated bodies no skin to see  
It's all that's left after a radium spree  
Hiroshima heroes they started it all  
We've got to stop the next big fall

No more life to protest about  
Now we've suffered the big fall out  
No more life to protest about  
Now we've suffered the big fall out, out, out, out, out, out, out  
ut
