

Bounce the Bouncer

Antidote

Out with the boys on a Friday night
None of us was looking for a fight
But here comes the bouncer this means trouble
I hope he's alone cause I'm not to sure if I see double

Bounce the bouncer
Kick him in the head
Bounce the bouncer
Put him in a hospital bed

Police are everywhere, this isn't fair
What did we do we won't run from you
We are right so we stand strong
We don't care cause we are drunk

This is a warning to all the bouncers
The chorus goes out to you
Don't you mess with the boys or this is what we'll do
