

Brainwash

Antidote

I was raised by a game computer
A PC as my private tutor
I could learn a whole lot more
My brain used as a fucking whore

When I grew up you know what they said
We're gonna put a chip in your head
We don't need you but your mind instead
Fuck off man I'm better off dead

Brainwash I don't remember how it was
Brainwash you're not gonna chip with us

We're all part of the same machine
I wanna stay me if you know what I mean
Don't want to be part of your barcode system
I want to stay me so I say fuck them
