Brainwash

Antidote

I was raised by a game computer A PC as my private tutor I could learn a whole lot more My brain used as a fucking whore

When I grew up you know what they said We're gonna put a chip in your head We don't need you but your mind instead Fuck off man I'm better off dead

Brainwash I don't remember how it was Brainwash you're not gonna chip with us

We're all part of the same machine
I wanna stay me if you know what I mean
Don't want to be part of your barcode system
I want to stay me so I say fuck them
