

Dope

Antidote

The drugs go slowly through my veins
Pumped from the heart into my brains
It feels so nice it feels so great
Forget all my problems, no time for hate

I know it is not good for body and soul
But it is so hard to control
I know it is not good for body and soul
I try, I try, I try to control

Speed, coke and xtc
My only escape from reality
Two days later, I feel like shit
I can't remember, give me another hit
