

Fuck Politics

Antidote

We're in it for the music
We're in it to get drunk
We're in it for the boys
We're in it for the punks
I really hate people
Who talk like fucking priests
I never will adopt their views
I've got my own ideas

Your fury is frustration
Your eyes see not clear
There's different ways to live your life
You should take a look up here
We love to play punkrock
We like to shout out loud
You'd better start a pogo
Fuck politics let's go!
