

## How Can We Live Tomorrow

Antidote

The rich are getting richer  
The poor are getting less  
I don't see any changes  
It's getting a big mess

How can we live tomorrow if there's no reason to live today  
How can we live tomorrow if there's no reason anyway

People get divided  
No longer in control  
What's the point in living  
If we have no say at all

Some people live in castles  
While others starve to death  
The gap is getting wider  
This world is going mad
