

My Government Is a Farce

Antidote

I voted for a better future
But now it's getting clear
If i wanna see things change
I've got to wait at least 4 years

Now clowns rule our country
And it isn't fun for you and me
This is not democracy
But it's the best soap on tv

No talk in terms of solutions
It's just a media blitz
I never voted for a government
That only cares about the rich
