

My Life

Antidote

Always drunk and always high
That's the way I wanna die
My hair dyes red and funny clothes
Just the way I like it most
not a single day that I am clean
I'll never wash my torn jeans
and I'm always in the need for money
Afraid I'll never get a honey
Never things that I can buy
It takes too much dope to get me high
Getting drunk gives me a thrill
Afraid I can not pay the bill
People neglect me
They act overreacted
I screw them and that's by the way
Why I'm losing friends day by day
