

New Enemy

Antidote

Again they found a cause
To start a new war
It's a no-win situation
It's just more bombs and frustration

I never could have thought
I'd have to sing these words
They claim to fight for liberation
It's just another dead nation

A new enemy - who's gonna fight for you
A new enemy - who's gonna die for you
A new enemy - who's gonna suffer for you
A new enemy - that I can't see
