

No Nazis in Punk

Antidote

I am into unity punks and skins unite
But it always ends in trouble when boneheads want to fight
They don't come for the music, don't care about the bands
They just want to sieg heil and make their nazi stand

I really like oi-music, I love to see the bands
But there's no place for nazis it's time to take a stand
They DON'T belong in punkrock, they DON'T belong in oi
If they keep coming to the concerts our scene will be destroyed
