No Nazis in Punk

Antidote

I am into unity punks and skins unite But it always ends in trouble when boneheads want to fight They don't come for the music, don't care about the bands They just want to sieg heil and make their nazi stand

I really like oi-music, I love to see the bands But there's no place for nazis it's time to take a stand They DON'T belong in punkrock, they DON'T belong in oi If they keep coming to the concerts our scene will be destroyed
