

Pride

Antidote

This was settled years ago
Why you bring it up I don't know
You are so bloody stubborn leave me alone
Can't you see I'm watching the show

What the hell is your problem
Oh I guess it is your pride
Everybody sees that you are wrong
Do you really have to fight

Can't you really see that you are wrong
You always jump into offense
Stupid pride you defend
It really doesn't make any sense
