

## Pride

## Antidote

This was settled years ago  
Why you bring it up I don't know  
You are so bloody stubborn leave me alone  
Can't you see I'm watching the show

What the hell is your problem  
Oh I guess it is your pride  
Everybody sees that you are wrong  
Do you really have to fight

Can't you really see that you are wrong  
You always jump into offense  
Stupid pride you defend  
It really doesn't make any sense
