

Unite Not Fight

Antidote

I went to a show just the other day
My favorite band was supposed to play
I went in had a lot of fun
It was only then when the trouble began

The moment I got in I could feel something was not right
And all of a sudden one big fight
FIGHT! FIGHT! FIGHT! punks and skins
FIGHT! FIGHT! FIGHT! and no-one wins

Punks and skins get together now
We need to make a change
We need to make it now
We've got to stand together side by side
I'm sure we're gonna make it
There's no need for us to fight
