

Who's the Racist

Antidote

Last night I ended in a fight
For a change I was right
They said racist cunt to me
I told them to fuck off You don't know me so let me be

They kicked me in my bit
We don't like your white shit
I don't like power anyway
Besides it's four to one Not a fair game you guys play

Today they hit my mate
He ran but was too late
They stabbed him 16 times
Just for no reason All they want is fight
