

The Great White Ocean

Antony and the Johnsons

Swim with me my mama when I dive in the ocean of death
I will cry if I am not with my family
You could be my friend eternally

Swim with me my sister when I dive in the great white ocean
We must try, try to find a way that we can see
See each others faces in the sea

Swim with me my sister when I dive in the great white ocean
We must try, try to find a way that we can see
See each others faces in the sea
