

Thick Putrefaction Stink

Antropofagus

a tomb before her, a big wish for desecration.
she was longing to bring the corpse obliteration.
a sadistic intent of mutilation, of blood! of gore! of slashing
!
she wanted to avenge herself on the woman now dead
for not having returned her perverse lesbolove.
her spite cried out for vengeance.
se exhumed the body and put it in a sack,
then went to the chapel; her pussy was wet.
there she gave vent to her grotesque lesbo
perversion, of blood! of gore! of slashing!
on the altar she started licking and masturbating
the body with an hook, a butcher's hook.
a corpse before her, a big wish for desecration.
she was longing to bring the corpse obliteration.
a sadistic intent of mutilation.
a drunk undertaker came very silently,
the girl was frightened by him, but
he wanted to fuck, nothing else.
her pussy was more and more wet!!!
they started fucking,
she pressed her vaginal lips and tore his penis up;
then she slipped the hook up the undertaker's ass
and she ripped him from the ass to the neck...
her cunt was more over excited by thick putrefaction stink.
she took the vermins from the corpse on the altar
and put them into the back of the man,
her voracious pussy was finally satisfied ?!?
