

# Golden Days

Anubis Gate

Wind blows on me  
Here comes my golden days  
It's the vital state I'm in  
I see the lights  
The lights that mesmerize  
This young boy to dream on

Dying to go  
Impatient to show  
the powers I possess  
I hunger for success

I find myself invincible  
Collecting golden days  
I'm counting golden days  
My immortality goes on  
Collecting golden days

I could be king  
Well I could be anything  
in the reckless state I'm in  
They'll turn their heads  
to learn my alphabet  
It's the future state of

My world, my space  
Old visions set ablaze  
They'll sing my songs and pray  
To be like me one day

I find myself invincible  
Collecting golden days  
I'm counting golden days  
My immortality goes on  
Collection golden days  
I'm talking golden days

Oh, my time had come  
Oh, my time has gone

I find myself invisible  
Collecting golden days,  
Just counting golden days  
My immortality is gone  
Collecting golden days  
I'm talking golden days

Rain pours on me  
Here comes my olden days  
It's the final stage I'm in  
I see the light that somehow mesmerized  
this old mind to wisdom  
Rain pours on me  
Here goes my golden days
